Recurrence: (none)

2/9 meeting agenda:

- Updates on topics discussed last week:
 - Confirming we will not cover processors in this rule
 - Definition of PFAS – continuing to meet with other offices to confirm whether the proposed definition excludes any substances of interest (i.e., likely to be of concern to human health or the environment). So far, OAR doesn't see an issue with our proposed definition.
 - All comment topics have now been summarized and are in Teams
- Reminders:
 - Please continue to review the comment summaries and provide thoughts on comments as needed in Teams
 - For everyone in the workgroup—please provide any feedback on the proposed PFAS definition, especially with respect to substances of interest which may be out of scope
 - Provide any details related to the benefits of the rule to different programs/offices/activities to Leigh – the more specificity (e.g., which data elements exactly will be of use), the better
- Continue discussion on possible reporting thresholds:  [Options Selection list 1-5-22.docx](#)

Putting standing weekly meetings on the calendar; we'll cancel if there's no need for a meeting.
